Meeting Minutes

MAIN ISSUES/DECISIONS

Confidentiality

- Project coordinator will ask EU to change the deliverable “Best Practices on Exit Strategies” from public, as stated on the grant agreement, to confidential in order to make all Partners comfortable in sharing data.
- Another European project, named *T.R.A.inTraining*, must rely on the risk assessment tool developed during RASMORAD project. However, this deliverable is confidential according to the Grant Agreement. The leader has to inform the EU about this discrepancy.
 - In previous SCs, the purpose of the risk assessment tool was changed. *“It was decided to design a set of standards for risk assessment in order to assess risk assessment strategies and methodologies used by each Partner organization and P&P Services based on common implemented methodology, and pilot the tool among the staff of each Partner organization”*.

Common methodology

- The common methodology on radicalization prevention will be amended to clarify the construction method and insert examples from Partner Countries. It will be shared among the Partners. Final comments are expected by August 1st.
- The last exit strategy questionnaire has been received recently. The common methodology on exit strategy will be finalized soon.
- It is necessary to upload: *Risk assessment tool/risk assessment methodology* (WP3/D3.1/D5) and *tool test Report* (WP3/D3.2/D6) by August 31st.

- The report will be sent on 16 July.
- The pilot test will be based on a checklist evaluating what has been done and what is still to be done.
- The checklist will be sent to Partners on July 13th.
- Responses are needed by August 1st.
- The test pilot Report is due to be uploaded on August 31st.

Webinars

- The webinars disseminate a summary of what we developed on the common methodology on risk assessment.
- The same webinar content will be duplicated in four webinars for practitioners.
- A different content will be developed for the webinar targeting civil society in order to be in line with the confidentiality agreement.
- The Partners agree on the necessity to have more information on the content and the procedure of access to webinars to be able to target the audience.
- Webinars are scheduled in September (end) and October.
- Information, including webinars dates and webinars targeted audience, should be provided by IPRS by the end of August to the Partners.

Dissemination strategy

- The report on the dissemination of results must be uploaded before December 31st.
- Each Partner will establish the national dissemination strategy.
- In order to prove that the work that has been done (to be mentioned in the report), each country should explain what they did and who was involved in the different activities. A photo of the seminar can be a good idea.
